

Part 1: How Wolves Change Rivers (4:47)
<https://www.youtube.com/watch?v=ysa5OBhXz-Q>

- List 2 changes that occurred in Yellowstone after wolves were killed off.

A.	B.
----	----
- Describe at least 8 changes that occurred in a trophic cascade once wolves were allowed to return.

A.	B.
C.	D.
E.	F.
G.	H.
- What also happened to the rivers and **why** did those things happen?

Part 2: Erosion in the Mississippi Delta (5:00)
<https://vimeo.com/19937112>

- As you did in question 2 above, starting with the first cause, make your own chain of events that occurred in this film. Your chain should be at least 6 items long.

A.	B.
C.	D.
E.	F.
- Describe one lesson that we can take from either film or from both of these films.

Extra Credit
There is some research that questions the findings in the first film. Find that and summarize the findings.
